

Lease your Betenbender Shear or Press Brake and the first 6 payments are \$99 per month*

If you are like most business owners, you want to put your capital to work where it will generate the biggest results—by investing in your business. You don't need to tie up your cash unnecessarily by using it to pay for machinery, not when there is another solution—leasing. And now you can lease your Betenbender Shear or Press Brake for 24-60 months and the first 6 payments are only \$99 per month. Call AEL for the remaining payments and additional information.

- **A lease provides 100% financing.** You can also include freight and installation charges in the lease. This reduces the amount of cash you need upfront.
- **Leasing will free up your existing credit lines for other uses,** which may allow you to acquire more advance equipment than paying cash.
- **Payments are fixed** and unaffected by changes in the economy or stock market, and can be structured to meet your company's tax objectives.
- **Own the equipment at the end of your lease** for either \$1 or 10% of the original financed amount.

* for qualified buyers
